Replit Proof of Use

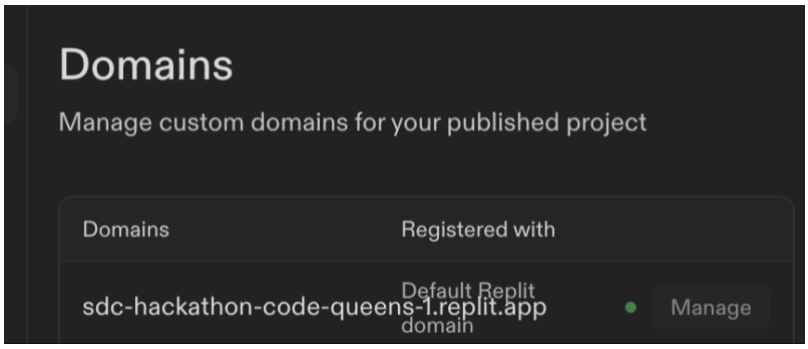

Team Code Queens, SDC Hackathon 2026, Domain 1
Replit account owner: Jeremy Tey Jie Ming

Replit project: https://replit.com/t/codequeens/repls/SDCHackathonCodeQueens-1
Live deployment: https://sdc-hackathon-code-queens-1.replit.app
GitHub: https://github.com/khaishuen819/SDC_Hackathon_CodeQueens

1. We built and tested the app in the CodeQueens Replit workspace.
2. The live demo runs on Replit Deployments (Autoscale) and is set to Public.
3. API keys and the database URL are stored in Replit Secrets.
4. Replit Agent was used for the first scaffold and the Replit configuration.
